## **'GRAPE' BRITAIN**

The production of Sparkling wine in Britain pre-dates the oldest Champagne houses. Some of the finest expressions can be found in the South and North Downs in Kent, Surrey, Sussex and Hampshire, which share the same geological seam of chalk that is found in Champagne, and allows them to share the same world-renowned characteristics.

2018	Rathfinny 'Rosé', Sussex	£145.00
2017	Roebuck 'Rosé de Noirs', Sussex	£145.00

## **The History of Champagne**

Champagne; a name so manifested in French history yet its origin is Italian, and actually comes from the Latin name of 'Campania'. First records of winemaking date back to the 5th century AD although wines at that time were not fizzy but were very light and pinkish.

Dom Perignon a winemaker from the Abbey of Hautvillers is partly responsible for today's success of Champagne but so are the English...

In 1662 Christopher Merrett, an English gentleman invented the 'Champagne' process. A few years before Dom Perignon.

Champagne as region is cold particularly during winter so it was common for the wines to stop fermenting and start again in spring when temperatures are back on the rise. This resulted in carbon dioxide building up and very frequently broke the thinly blown bottles.

NV	Billecart-Salmon Rosé, Brut, Mareuil-sur-Aÿ	£165.00

## **The History of Prestige Cuvee's in Champagne**

Salon is one of the rarest and most sought after champagne's. Its first vintage was 1905 (released in 1911) and comes from a 1ha plot in Le Mesnil-sur-Oger.

Cristal is widely considered as the first prestige cuvee created in 1876 for Tsar Alexander II of Russia. He was afraid of being assassinated and ordered the bottle to be clear so he could see the bubbles and with a flat bottom in order not to be able to plant a bomb in the punt.

Dom Perignon's first vintage was relatively recent, starting with 1921 and until 1947 was effectively a late released Moet & Chandon Vintage Champagne. It was as well the wedding champagne for Prince Charles and Diana in 1981.

Krug has crafted a prestige cuvee annually since its foundation in 1843; no exception. This is unique in the world of Champagne. It takes 25 years from start to finish to create one bottle of Krug Grande Cuvee. The 168<sup>eme</sup> Edition means that for the 168th time this cuvee has been created, a sheer monumental effort to create the very best year on year.

Boerl de Kroff is the brainchild Patrick Sabaté and Stéphane Sésé with its first vintage being 1995 it is one of the youngest prestige champagne's. Only from 3 vineyard parcels, only in Magnum and only in great vintages.

## **The History of Wine from the Loire Valley**

Little is known about the exact date when viticulture was established in the Loire but historians believe it was around the 1st Century AD.

With its network of rivers it was just a matter of time before the Loire became famous and a well sought after wine region; lead by Dutch wine trades in the 11th Century.

Before the rise of Bordeaux in the late 12th century wines from Poitou and Anjou were the most popular choices for merchants to ship; how times have changed.

St-Pourcain was one of the most prized wines during the reign of King Louis XI (1214-1270) and has now almost disappeared from public regard.

Until the mid 20th Century Sancerre produced more red wine than white and the whites produced were based on the Chasselas grape variety. Nowadays red and rose wines represent just 10% of the total production.

Pouilly Fume takes its name from the Pouilly-sur-Loire town yet the appellation Pouilly-sur-Loire promotes Chasselas as main varietal.

The origin of Sauvignon Blanc can be traced back to 1534 when Francois Rebelais mentioned it in his book Gargantua. This popular grape variety is also a parent of Cabernet Sauvignon.

## **The History of wine from Burgundy**

The first records of wine growing in Burgundy dates back to the time of Celts and a small vineyard was even found close to Gibriacum (Gevrey - Chambertin) dating back to the 1st century AD.

The Burgundians, Scandinavians by origin founded a kingdom in the Rhône Valley in 456. It included Lyon and Dijon and wine had already been established here before their arrival.

Monks and Monasteries are largely responsible for the prosperity of Burgundian wine thanks to their cellars, storage rooms and a high degree of organisation & record keeping. This consistent learning process helped to constantly improve the quality and locate the best vineyards.

In 910 the foundation of the Abbey at Cluny by Benedictine Monks marked an important beginning as hundreds of priories across Europe (England, Germany, Spain & Italy) came to own vineyards.

In 1118 the Cistercians of Pontigny purchased a vineyard close to Auxerre on the river Serein and produced a white wine; the first Chablis.

Bearing in mind that in the 12th and 13th Century white wine was preferred to red and was highly valued in times of murky drinking water. It was safer to drink wine than water...

## **The History of wine from Burgundy**

The vineyards of Corton-Charlemagne are named after Charlemagne or Charles the Great (742-814) the first mention of the vineyard was in 1375.

According to legend the vineyard is planted with white varieties because the emperor's wife preferred them as they did not stain her husbands rather long beard.

The names Chevalier and Batard-Montrachet derive from the legend that the lord of Puligny divided his vineyard between his eldest son (Knight=Chevalier) and his illegitimate son (Bastard=Batard).

## **The History of wine from Italy**

Schiopetto is one of the oldest estates in Collio. It owes its fame to Mario Schiopetto, a pioneering winemaker that started in 1970 with the vineyards around the Archbishop's Palace at Capriva.

Soave was one of the first zones in Italy (in 1931) to be recognized by Royal Decree for having the potential to produce fine wines. This document set out the borders of the zone which is the current production area for Soave Classico.

Controversially Italy's first white DOCG was also the first DOCG, little known Romagna Albana DOCG in Emilia Romagna holds the claim to that distinction.

## **The History of wine from Spain**

Around 1250, wine was regularly shipped from Bilbao to the English ports of Bristol, Southampton and London. Spanish wines became popular due to being from a hot climate meaning they were high in alcohol and therefore kept better than French or German wines.

The wine regions around Cádiz and Málaga, both important Spanish ports, were the first to attract the attention of foreign traders. Sherry, often called sack, became a hugely popular drink at the English court. Foreign traders in the sherry town of Sanlúcar de Barrameda were granted special privileges by the Duke of Medina Sidonia in 1517 and an English church was built to encourage more trading.

In 1533 the divorce of Henry VIII from Catherine of Aragón brought English merchants into direct conflict with the Spanish. Trade between the two nations diminished.

After the defeat of the Spanish Armada in 1588, trade in wine soon resumed with sack becoming a popular drink in the court of James I after the death of Elizabeth I.

The history of the Rías Baixas D.O. started 1980 when an official denomination was created exclusively for the famed Albariño grape variety.

## **The History of wine in Austria**

Vine growing started with the Celtic tribes yet historic records only began with the Romans.

Benedictine monastery Stift Göttweig and Augustinian monastery Klosterneuburg hugely contributed to the success of Austrian wine, due to their documentation and dedication to wine. A very similar principle as in Burgundy.

A part of Austrian tradition is the 'Heuriger'; a tavern serving local specialties accompanied by local wine generally from the owner's vineyards. Vienna (Wien in Austrian) is as a matter of fact named after wine.

Until the 1950's the majority of Austrian wine was a 'Gemischter Satz' (field blend of different varieties) until one grape variety changed it all; Grüner Veltliner which has emerged as single variety since the 60's.

The high quality of Austrian wine today is based on several facts; the most important being that after the 1985 wine scandal the government has introduced the strictest wine law in Europe.

## **The History of wine in Germany**

Since 1718 permission to start the harvest at Schloss Johannisberg was announced in writing by Prince Bishop of Fulda via courier. In 1775 the courier was delayed for 14 days and for the first time Botrytis cinerea or noble rot appeared in the vineyard. The resulting wines were of stunning quality and appreciated, even praised by Thomas Jefferson in 1778.

Unknown is the precise time Vitis Vinifera was successfully cultivated in Germany but almost certainly it owes its planting to the Romans. The first written record was by Roman author Ausonius of Bordeaux who beautifully described the steep vineyards of 'Mosella' aka Mosel.

One of the greatest vineyards in Germany the 'Doctor' in Bernkastel has a very long established history. In the 13th Century the local archbishop Bömund II (ruled 1354-1362) fell very ill and none of his famous doctors were able to cure him until he drank a wine from this vineyard. He stated after: 'This wine is the true Doctor'.

Are all German wines sweet??? In fact from the 7.4 million hectolitres produced a solid 3.4 million are dry (below 9g/l).

Legend has it that the sweetness in German wines is related to the '3 men wine' rule. If certain wines would be fermented to complete dryness you would need 3 men to drink a glass of wine. Two men holding another man down to force him to drink the highly acidic grape juice.

## **The History of wine from the United States of America**

Wine making in the States had an ambitious start in the 16th century yet initial trials with American vine species proved rather difficult. The 2 first states actively trying in cultivating vines were Virginia and Carolina.

In 1619 the first European 'vitis vinifera' vines made it to Virginia and no stone remained unturned in the quest to make good wine, yet the certain conditions in the form of extreme weather and unknown vine diseases didn't make it easy.

First success was achieved with the so called Hybrids (a cross of American and European vine species) in the 19th century.

### **The History of wine from Australia**

One name very much associated with Australian wine history is James Busby, who was actually born in Europe, in Edinburgh to be precise. Mr. Busby's greatest contribution to Australian wine was made in 1831 when he returned to England and spent months collecting vine cuttings for planting in Australia. His collections included about 680 vine varieties yet not all were different.

The History of Australian wine may not be as long as in Europe but the sheer diversity of soils, climates & grape varieties is breathtaking. Another factor often overlooked is the heritage of old, often ungrafted vines.

### **The History of wine from New Zealand**

The first wine produced in New Zealand in 1836 came from the far north of the country at Waitangi. It was mostly sold to the British troops stationed there at the time by James Busby, who is considered the father of New Zealand wine.

A small plot of Muscat was planted in Marlborough in 1873 but it wasn't until 100 years later that serious viticulture and the now famed Sauvignon Blanc made its way to the region.

### **The History of wine from South Africa**

The first vines in South Africa seem to have arrived in 1654, with the first vintage being recorded in Jan van Riebeeck's logbook in 1659 for the Dutch East India Company.

In 1990 the Bouchard Finlayson Estate was created as a collaboration between Peter Finlayson (former winemaker of Hamilton-Russell) and Paul Bouchard (from Bouchard Aîné in Burgundy).

## The History of wine from Bordeaux

Bordeaux gives its name to a wine region that includes the vineyards of the surrounding Gironde departement totaling 112.000 ha under vine. The most famous examples; Cru Classe, represent just 5% of the total production. 'Clairet' in old french is the origin of 'Claret' which refers to a mixture of white and red grapes which were fermented together. A rose wine by modern standards.

The Latin poet Ausonius (AD 310-393/4) was one of the first to mention wine grown in Bordeaux and as a matter of fact Château Ausone is named after him.

A few nations have assisted Bordeaux's to rise to supremacy; King John's (1199-1216) act of exemption of the Grand Coutume (export tax) on ships sailing from Bordeaux as well as preferred treatment of wine merchants in London. This made wine from Bordeaux significantly more affordable than any other imported into the UK.

Equal contribution to the success of Bordeaux belongs to Dutch wine traders who drained the famed Medoc (a swamp at that time) in the 17th Century. Before that the most well drained area was around Graves including the notable Château Haut Brion.

The 1855 Classification was drawn up for the world exhibition in Paris by Napoleon III and was based purely on one factor: Price. A few changes have been made along the way like adding Chateau Cantermele in 1856 and elevating Château Mouton Rothschild to a First Growth on the 21st of June 1973.

Malbec was a widely planted grape variety in Bordeaux until 1956 when severe frosts wiped out 75% of the current plantings. This also means that the majority of wines had a large percentage of Malbec in their blends for the 1855 Classification.

Wines sold by the merchants were not only from Bordeaux but also the neighbouring areas like Gaillac, Quercy, Nérac and Bergerac as the climate is consistently more reliable.

On another note wines from Bordeaux were often blended with other regions like Languedoc, Provence & Rhône to add body and structure. This multiregional blend was recreated recently by Château Palmer with their 'Historical XIX<sup>th</sup> Century Wine'.

The history of second wines is longer than some would assume and dates back to the 17th Century when notably Château Margaux sold another wine different than their so called 'Grand Vin'. This wine was sold prior to 1906 as '2eme' wine then changed in 1908 with the first vintage of Pavillon Rouge.

## **The History of wine in Burgundy**

The first records of wine growing in Burgundy dates back to the time of Celts a small vineyard has been found close to Gibriacum (Gevrey - Chambertin) dating back to the 1st century AD.

The Burgundians, Scandinavians by origin founded a kingdom in the Rhône Valley in 456 which included Lyon and Dijon. Wine was already well established here before their arrival.

Monks and Monasteries are largely responsible for the prosperity of Burgundian wine due to their cellars, a high degree of organisation and record keeping. This consistent learning process helped to improve quality and locate the best vineyards.

In 910 the foundation of the Abbey at Cluny by the Benedictines monks marked an important beginning as hundreds of priories in Europe (England, Germany, Spain & Italy) came to own vineyards.

In 1232 the duchess of Burgundy, granted the Abbey of St-Vivant the vineyards known as Romanee-Conti, La Romanee, La Tache, Richebourg and Romanee-St-Vivant which are nowadays mostly associated with DRC (Domaine de la Romanee Conti) and Liger Belair.

The Cistercian Monks played another important role other than being devoted to austerity and abstinence of sensual pleasure, they were also important landowners. Although their devotion was different to the Benedictines, they were still producing wine and purchasing vineyards.

Bearing in mind that in the 12th and 13th Century white wine was preferred to red and was highly valued in times of murky drinking water. It was safer to drink wine than the water...

## **The History of wine in Burgundy**

One of the first negociants was Bouchard Père et Fils (est 1731). Their Beaune Grèves 1er Cru - Vigne de L'Enfant Jésus presumably dates back to 1638 when Anne of Austria gave birth to King Louis XIV.

A gift in the form of a small vineyard in Vougeot was given in 1110 to the monks of Cîteaux; their dedication for 226 years saw the vineyard grow to the size of today's Clos Vougeot(50.96ha). Both group of monks, the Cistercians and Benedictines are widely credited for discovering the importance of Terroir and began to acknowledge different Crus.

Philip the Bold (1363-1404) son of King John of France was very interested in wine and he issued a degree declaring Gamay as a grape variety to be harmful to human beings. Having said that the first time Pinot Noir was mentioned was in 1370s.

## **The History of wine in the Rhône Valley**

Château d'Ampuis is a fort that has been occupied since Roman times, and still exhibits the remains of mosaics and amphorae found in the gardens in front of the main building from this period. Ancient texts refer to the Château as luxurious Villa d'Ampucius. In 1995, the Guigal family purchased the entire Château and grounds.

The name Hermitage La Chapelle has its origins based on a medieval legend. When the Crusader Gaspard de Stérimberg returned from the Holy Land he gained the permission of Blanche of Castille, Queen of France to build a chapel and dedicate it to St Christopher. He lived there as a hermit for 30 years until he died.

The origin of the name Châteauneuf-du-pape (translates to "the Pope's new castle") comes from when Pope Clement V moved the papal court to Avignon in 1309 and his entourage was quick to discover the quality of the local wines. Three-quarters of the wine consumed during this time at the papal court came from the Rhône valley.

In 1954, the village council of Châteauneuf-du-pape was quite perturbed and apprehensive that flying saucers or 'flying cigars' might do damage to their vineyards. So, they passed an ordinance prohibiting the landing of flying saucers or flying cigars in their vineyards. This law has yet to be repealed as it has been entirely successful so far.

## **The History of wine in Italy**

Modern Barolo is considered to be born around 1830, and the credit is generally given to Marquis Falletti (1782 - 1838) and Count Camillo Benso di Cavour (1810 -1860, first Prime Minister of Italy) who invited the French enologist Louis Oudart to the Barolo region to improve the winemaking techniques of the local producers.

Gaja was founded in 1859 by Giovanni Gaja, but it's under the leadership of Angelo Gaja who took over in 1961. He was responsible for enormous innovations that reshaped Barolo and Barbaresco, by moving to single vineyard bottlings, modernizing vinification.

Darmagi which means "what a pity", refers to the comment that Angelo Gaja's father made whenever he passed the vineyard after the Nebbiolo had been uprooted in favour of foreign Cabernet Sauvignon.

The genesis of Amarone is dated 1938 when a forgotten barrel of Recioto (typical red sweet wine of the region) continued to ferment. When it was finally found by the wine maker, it turned out to be a dry wine that was amazingly mellow and aromatic.

## **The History of wine in Italy**

Sassicaia's history began when Mario Incisa della Rocchetta planted a vineyard with Cabernet Sauvignon on his estate in Bolgheri, the Tenuta San Guido. The wine itself was first made in 1948 but was only for family consumption.

In 1968 the first vintage was released and in 1994 the Italian government acknowledged the superior quality of Sassicaia and granted it its own appellation; Bolgheri Sassicaia DOC, the only wine from a single estate in Italy to enjoy this privilege.

The first Tignanello was produced by the Marchesi Antinori (dating back to 1385) and was called "Chianti Classico riserva vigneto Tignanello" which featured a blend of Sangiovese with Canaiolo, Trebbiano and Malvasia.

The solitary name "Tignanello" has been used since 1971, when this superb blend became the first modern Italian wine to contain a non traditional grape; Cabernet Sauvignon. Since 1982 the blend has remained constant with Sangiovese, Cabernet Sauvignon and Cabernet Franc.

Cosimo III, Grand Duke of Tuscany, determined in 1716 the Chianti Classico borders in order to protect authenticity and combat fraud.

In 1861 Bettino Ricasoli (1809–1880), second Prime Minister of a newly united Italy, after long study and experimentation, recommended that the Chianti be based on Sangiovese with the addition of Canaiolo and Malvasia. This formula was used as a guide to create the DOC regulations in 1967.

Brunello di Montalcino did not even exist until the end of the 19th century when Ferruccio Biondi-Santi isolated a particular clone of Sangiovese on his Il Greppo estate. Called Sangiovese Grosso, it was used to create the first "modern version" of Brunello di Montalcino in 1888.

## **The History of wine in Austria**

Vine growing history started with the Celtic tribes yet historic records start with the Romans.

Carnuntum as an Austrian wine growing region deserves special recognition as it was one of the most important roman settlements and also one of the first; dating back to 6 AD.

## **The History of wine from Spain**

One of the lasting measures introduced by the monarchist dictator General Primo de Rivera Alfonso XIII was the "D.O." system of controlled appellations. Administered by a Consejo Regulador the first established region was Rioja in 1926 followed by Jerez and Málaga in 1933 and 1937 respectively

Bodegas Vega Sicilia was founded in 1864 by Don Eloy Lecanda y Chaves, who planted various grapes taken from Bordeaux, including Cabernet Sauvignon and Merlot, which are still used in the wines today. The word Vega refers to the green vegetation that grows along the riverbank of the Duero while Sicilia refers to Saint Cecilia, the patron saint of musicians.

Pingus is produced by the visionary Danish winemaker Peter Sisseck, who in 1995 began to dream about making wine from the old vines he saw dotted around the Ribera del Duero landscape. He named it "Pingus," after his childhood nickname.

In the 3rd century B.C. the first settlers arrived in the Beronia region of Spain, known today as La Rioja.

Marqués de Murrieta's foundation is linked to the origins of the Rioja wines thanks to Luciano Murrieta producing the first Rioja in 1852 and also being the first to export his wines. He established the French concept of "Château" at the Ygay Estate where he built the emblematic Ygay Castle.

The town of Numancia was renowned in antiquity for its legendary resistance to a Roman invasion. In 134 BC, the towns people fought to the last, choosing death over the dishonour of surrender against Roman invaders. The town gives name to Bodega Numanthia's first vineyards which were planted in 1880.

## **The History of wine from the United States of America**

Wine making in the States had an ambitious start in the 16th century, yet initial trials with American vine species proved rather difficult. The first 2 states actively trying to cultivate vines were Virginia and Carolina.

In 1619 the first European 'vitis vinifera' vines made it to Virginia and no stone remained unturned in the quest to make good wine, yet certain conditions in the form of extreme weather and unknown vine diseases did not make it easy.

First success was achieved with the so called Hybrids (a cross of American and European vine species) in the 19th century.

Then things started to change after the American Civil War, the Mexican-American War & Gold Rush as there was a promising new land for wine production emerging; California.

The first vitis vinifera (european vines) variety grown in California was Mission which is still in use today although mainly for distillation. The biggest hurdle for wine production occurred between 1920 and 1933; Prohibition.

After the second world war slowly but surely a US wine industry started to emerge but it was not until the 1970's that it really took off.

The judgement of Paris in 1976 hosted by Steven Spurrier certainly helped to maintain the momentum as it was a competition pitting French against American wines. Everyone was surprised that America won in both categories which were wines based on either Chardonnay or Cabernet Sauvignon.

Stag's Leap Wine Cellars's (S.L.V) who won in the category of Cabernet produce a remarkable wine that is still very much sought after today.

## **The History of wine from Australia**

One name very much associated with Australian wine history is James Busby, who was actually born in Europe, in Edinburgh to be precise. Mr. Busby's greatest contribution to Australian wine was made in 1831 when he returned to England and spent months collecting vine cuttings to plant in Australia. His collections included 680 vine varieties, yet not all were different.

The History of Australian wine may not be as long as in Europe but the sheer diversity of soils, climates & and grape varieties is breathtaking. Another factor often overlooked is the heritage of old, often ungrafted vines.

Langmeil's Freedom Shiraz dates back to 1843 and hereby represents the oldest known Shiraz vineyard which is still producing grapes today.

The Absconder Grenache from Wirra Wirra in McLaren Vale comes from a vineyard planted in the 1920's.

Since 2009, the Barossa Old Vine Charter honours the vine age and classifies them in four different categories; in ascending order: Old (<35y), Survivor (<70y), Centenarian (<100y), Ancestor (<125y).

A special recognition to the iconic Grange by Penfold's; a brainchild of Max Schubert which is a dry red wine secretly created in the 50's with the first experiential vintage being 1951 and the first commercially released vintage coming in 1952.

## **The History of wine from New Zealand**

The first wine produced in New Zealand in 1836 came from the far north of the country at Waitangi. It was mostly sold to the British troops stationed there at the time by James Busby, who is considered the father of New Zealand wine.

Legend has it that in the 1970's a NZ customs official intercepted a prohibited but rare clone of the Pinot Noir grape. Realizing what he had found the cuttings were hastily planted in Martinborough via transportation in his gumboot (wellington boot). His clone of Pinot Noir (the Abel or gumboot Clone) is now the most planted in the throughout the country.

The Central Otago region was originally famed for stone fruit and goldmining. Due to an early survey it was deemed a good area for quality wine production yet this wasn't realised until the 1990's with the success of Pinot Noir.

Maori first explored Weka Pass around 1000 years ago when the area was still forested and rich in birdlife. After a limestone quarry was located here then abandoned it became an outstanding location for the limestone-loving Pinot Noir grape.

## **The History of wine from South Africa**

Stellenbosch was named in honour of the founder, Simon van der Stel established in 1683. Stellenbosch has been the home of the important department of Viticulture and Enology in the University of Stellenbosch since 1917.

The Pinotage grape variety dates back to 1924, when professor Perold successfully crossed Pinot Noir and Cinsault yet it was not until 1941 when Elsenburg first bottled one example.

In 1881 the village of Roubaix Dorp changed its name to Franschoek (French Quarter) in honour of the French speaking population settled in the area.

In 1975 the Hamilton-Russell family were the first to believe in the potential of a cool wine region within the Hemel-en-Aarde Valley.

Edie Sadie is considered a pioneer of Swartland Region as he improved viticulture and winemaking processes and became a leading example for the area.
